

Xodys Project - Detail(Employees)

The following is a list of the projects that start the development with the goal of 2008 and the place steadily to

Salariid Employees

Examples of this kind of Staff:

Support Staff

- Accounting
- Legal

Prototyping Making - Someone directly following a design without doing any further development
 General Support - Errands, cleaning, etc.

Development Staff

- invest in development staff in salaried positions must be able to individually show a break even on the
- It will be their responsibility to ensure that this balance is maintained over the long term
- reference system which normally will track the system employee is doing, and give managing developers
- Disincentive that have been found to be able to break even on the investment in the company management
- concepts emphasis is put on producing viable concepts in higher volume, or doing work on already placed
- and so they are not working on a concept that has been placed, the concept profit shares have been set,
